ISSUE11 · VOL. 01 · COPY BANK · OCT 27, 2026

COPY BANK.

Every approved line from the ISSUE11 landing page, grouped so it can be reused in social posts, emails, ads, App Store text and PR.

HOW TO USE

★ = Megan's own words. Use them as written.

Source of truth: design/landing/index.html (landing page). If a line changes there, change it here too.

Keep it honest: the founding offer runs only until 1,000 sign-ups; "first app ever" needs proof before public use; the founder note is a draft until Megan approves it.

House style: outcome-focused, no em dashes, no invented numbers, reviews or results. Button text is always "Get early access" until launch.

A real record of showing up for yourself.

04 HER PAIN, IN HER WORDS (HOOKS: "SOUND FAMILIAR?")

- My vision board inspires me for five minutes, then I forget about it.
- I start journaling, then stop a few days later.
- I'm so focused on when it will arrive.
- I keep waiting for my life to start while I watch others live theirs.
- Most journals start to feel like homework.
- Affirmations can feel fake when your life says otherwise.
- Small shifts are easy to miss.
- Your dreams are scattered across screenshots, notes and boards.

05 DESIRED OUTCOMES (CARD TITLES, CAROUSEL SLIDES)

- Know what you actually want.
- A practice you actually keep.
- Motivated, not pressured.
- See how far you've come.
- So the life you want feels close, not far away.

06 IS IT FOR YOU? (POLARIZING)

- For you if · You're done waiting.
- You can see the life you want and you're ready for one small step a week toward it.
- You want something beautiful that's actually yours.
- You'd rather build it one small step at a time.
- Not for you if · You're waiting for a sign.
- You want the result without the process.
- You need pressure to keep going.
- You'd rather someone else wrote your story.
- Done waiting? Name your Issue.

07 HOW IT WORKS (3 STEPS)

1 · Gather what you want. Pick from curated editorial images, or upload your own. All the life you want, in one place.

2 · Make it yours. Write a few honest lines and pick one small move a week. The Editor lays out the pages. Your words stay exactly as you wrote them.

3 · Your 40-page Issue. Watch it fill, page by page. At 40 pages, keep it in the app or order it printed.

Missed a week? Pick up where you left off. There are no streaks to break.

What's the life you're making room for? Give it a title and a mood.

10 FOUNDER NOTE (⚠ DRAFT IN MEGAN'S NAME, SHE REWRITES OR APPROVES)

I kept saving other people's lives on my phone while my own goals waited. ISSUE11 turns you back to your own life, one page and one small move at a time.

No reviews yet. Yours could be first.

What is ISSUE11? ISSUE11 is a process-focused manifestation app for iPhone that turns your dreams into a personal magazine and helps you take the small steps that make them real.

Does it promise results? No app can promise results. ISSUE11 gives you the process that moves you toward them: one small move a week, and a place to keep proof when something shifts.

Is there AI in it? Yes, and it's optional. The Editor lays out your magazine pages, never rewrites your words, and can be switched off in settings.

How is it different? A vision board shows what you want, and most get forgotten. A journal holds what you write. ISSUE11 puts both into one magazine about your life and adds one small move a week.

Price: $9.99 a month, digital magazine included. Printed Issue $29.99 with free standard shipping in the US (optional).
